

Coombe Women & Infants University Hospital

Maternity Patient Safety Statement – July 2017

These summary statistics reflect the most recent monthly activity at the Coombe Women & Infants University Hospital. We hope that these data provide reassurance regarding the quality and safety of services at our hospital. These figures are not formatted in a way to support comparison with other hospitals or aggregation with other data. Given the complexity of care at our hospital, which is a national tertiary referral centre, it is not appropriate to compare any of these statistics with other hospitals that have different patient numbers or types of clinical workload.

Hospital Activities	1	Total mothers delivered \geq 500g (n)	655
	2	Multiple pregnancies (n)	15
	3	Total births \geq 500g (n)	670
	4	Perinatal mortality rate – adjusted (per 1,000 total births)	1.5
	5	In utero transfer – admitted (n)	14
	6	In utero transfer – sent out (n)	0
