Hospital Dublin

Maternity Patient Safety Statement – November 2016

These summary statistics reflect the most recent monthly activity at the Coombe Women & Infants University Hospital Dublin. We hope that these data provide reassurance regarding the quality and safety of services at our hospital. These figures are not formatted in a way to support comparison with other hospitals or aggregation with other data. Given the complexity of care at our hospital, which is a national tertiary referral center, it is not appropriate to compare any of these statistics with other hospitals that have different patient numbers or types of clinical workload.
