

# The Coombe Women & Infants University Hospital Dublin

## Maternity Patient Safety Statement – September 2016

These summary statistics reflect the most recent monthly activity at the Coombe Women & Infants University Hospital Dublin. We hope that these data provide reassurance regarding the quality and safety of services at our hospital. These figures are not formatted in a way to support comparison with other hospitals or aggregation with other data. Given the complexity of care at our hospital, which is a national tertiary referral center, it is not appropriate to compare any of these statistics with other hospitals that have different patient numbers or types of clinical workload.

<b>Hospital Activities</b>	1	Total mothers delivered $\geq$ 500g (n)	706
	2	Multiple pregnancies (n)	13
	3	Total births $\geq$ 500g (n)	721
